

HOW DO I SAFELY DISPOSE OF NEEDLES AND SYRINGES IN HOUSEHOLD WASTE?

HELP PREVENT INJURY AND ILLNESS SPREAD TO ENVIRONMENTAL WORKERS AND THE COMMUNITY BY FOLLOWING THESE RECOMMENDATIONS...

PLACE ALL NEEDLES AND SYRINGES IN A PUNCTURE RESISTANT HARD PLASTIC OR METAL CONTAINER SUCH AS AN EMPTY COFFEE CAN OR LAUNDRY DETERGENT BOTTLE.

SECURE LID WITH DUCT TAPE AND DISPOSE INTO THE REGULAR HOUSEHOLD TRASH...NOT WITH RECYCLABLES AND PLEASE LABEL "DO NOT RECYCLE."

The above recommendation is provided as a public service by [Weidle Sanitation](#).
